

TO OUR NEW PATIENTS:

Welcome to Women's Specialty Group

Please complete the updated Patient information and Health history forms.

We ask that you list ALL CURRENT MEDICATIONS on the form. Dr. Binette and our Nurse practitioner, Patricia Armstrong also ask that you bring all of your current medications, vitamins, and supplements you take, in their original containers.

Bring the completed forms with you to your appointment 15 minutes earlier than your appointment so we can make copies of your insurance cards and create your medical file.

We participate with most insurance plans. Please bring your insurance card(s) to every visit so that we can check it for accuracy.

It is your responsibility to determine your insurance benefits as well as to verify our participation with your plan. Your visit may require procedures or tests that may fall under your deductible. Even if you have a co-pay for an office visit. Patients with a managed care plan will need to have a referral in place at the time of their visit. Please call your primary care physician to be sure they have processed your referral.

Co-pays are due on the day of service as well as payment in full for those patients paying privately. Our patients with deductible insurance plans can expect a statement with any remaining balance to be mailed to them as soon as we have processed payment from your insurance.

Please feel free to contact our office with any questions that you may have.

We look forward to seeing you soon.
